

CAREER OBJECTIVE

Hard-working professional with 5 years of experience and a proven knowledge of application development and advanced technology. Aiming to leverage my skills to successfully fill the Developer role at your company.

EXPERIENCE

Software Engineer, DataRemote, Miami, FL

Jan 2022 - Present

- Developed robust web applications using React.js and TypeScript, creating responsive and user-friendly interfaces.
- Collaborated with a team of developers using GitLab for version control and efficient code management.
- Utilized Docker to containerize applications, facilitating easy deployment, scalability, and consistent development environments across teams.
- Created back-end functionalities using Python and Flask, designing and implementing RESTful APIs to support front-end application requirements.
- Collaborated with cross-functional teams to troubleshoot and resolve issues related to application performance, scalability, and security.
- Actively participated in code reviews, providing constructive feedback and ensuring adherence to best practices and coding standards.

Full Stack & Mobile Developer, JobCore LLC, Coral Gables, FL

Feb 2020 - Dec 2021

- Conducted code refactoring, object-oriented programming, and web services.
- Developed custom applications and interfaces based on user requirements.
- Consulted with clients to prototype, refine, test, and debug programs.
- Provided mentorship to fellow employees in software development processes.

Developer, ImRecrutable, Miami, FL

Jun 2018 - Jan 2020

- Developed back-end services using Node.js.
- Assisted clients in achieving strategic objectives through technology solution implementation.
- Provided technical expertise to support migration of applications and data sets to the cloud.
- Developed and delivered artifacts in Agile methodology.
